AMJAD AZIZ SHAH

Software Engineer

+92 329-501-5604 amjadshahg26@gmail.com I9 Markaz, Islamabad

TECH STACK:

Languages: C,C++,Java, JavaScript, Python, SQL

Framworks: Django, Flask, React, React-Native, REST APIs

Tools: Git, Github, Antigravity, VS Code

Database: MySQL, Sqlite,MongoDB

Web: HTML, CSS, JS

PROJECTS:

LUNA-AI CHAT APPLICATION:

- Developed a full-stack AI chatbot application using React Native and Node.js.
- Integrated Groq AI APIs for real-time, multi-model AI conversations.
- Built secure REST APIs for seamless frontend-backend communication.
- Implemented a responsive chat interface with real-time messaging and chat history.
- Strengthened expertise in API integration, asynchronous programming, and mobile app development.

BLOG MANAGEMENT WEBSITE:

Python, Django, HTML/CSS

- Developed a full-stack blog management system with secure user authentication.
- Implemented CRUD operations for creating, editing, deleting, and managing blog posts.
- Built category-based filtering and responsive user interfaces using HTML and CSS.
- Utilized Django ORM for efficient database management and backend operations.
- Applied full-stack development principles with clean, maintainable code.

RISEL GROWTH AGENCY WEBSITE:

React.js, Node.js, Express.js, Tailwind CSS

- Developed a responsive digital agency website using Vite React and Node.js/Express.js.
- Designed a modern, mobile-friendly UI with optimized performance and SEO.
- Integrated an AI chatbot for customer support and Calendly meeting scheduling.
- Implemented contact forms, lead generation, and social media integrations.
- Maintained clean, scalable code with Git version control.

EDUCATION:

Iqra University - 2023-2027

BS Software Engineering

LANGUAGE:

English

Urdu

SKILLS:

Problem Solving

Analytical Thinking

Quick Learning Ability

Debugging & Troubleshooting

Leadership & Coordination
